

# Cement / Fly Ash Storage Silo

(Cap.50 to 200 Ton)

**PCS SERIES**

## INTRODUCTION :

“PLUS” make Cement / Fly Ash Storage Silo is mostly used for Storage of Cement / Fly Ash in bulk. These Silos are used with Concrete Batching/Mixing Plant and there is no need of Cement/Fly Ash Godown. It will also decrease wastage of Cement / Fly Ash at the site. The silos protect cement/Flyash from rain and atmospheric moisture and wind at site. Available in different capacities from 50 Ton to 200 Ton Storage.

Mobile silos in capacities starting from 20 ton upto 200 tons can be produced on demand.
